

We save homes, lives, & money on your home insurance premiums by upgrading your home roof to wall attachments. We guarantee that if we add nails, you will qualify on nail count for the discount. If we add attachments either straps or clips, we guarantee your new attachments will qualify for the appropriate credit.

Free estimates! References are available. We add nails or straps so you then qualify for discounts. Huge discount savings after the roof to wall attachments are retrofitted.

ROOFERS DO NOT UPGRADE STRAPS IF YOU RE-ROOFED!!

All that is needed is to ask your insurance agent or check your Wind Mitigation Report... Section 4- Roof to Wall Attachments: to see if they are Toe Nails, Clips, or Wraps. E-Mail the report for the free estimate.
